

Gravity roller conveyor

Extension for the outfeed conveyors of our stackers

Gravity roller conveyor – full set

Gravity roller conveyor is designed as an extension to outfeed conveyors of our [stacking solutions](#). Using gravity rollers is a proven method of book stacks gathering. It is the simplest and most affordable method of book handling.

The conveyor has a possibility to customize its height from 740mm to 1095mm, and length starting from 1200mm to the iterations of 1200mm. All extensions/modifications are easily accessible, because we offer [all separate components](#) on our website.
