

Gravity roller conveyor

Extension for the outfeed conveyors of our stackers

*Note: the picture displays the [full set](#). The product presented on this page is a partial product.

Leg support bar

This product is a partial component of the [Gravity roller conveyor - full set](#) and the [Belt conveyor - full set](#). It is used to ensure stability of the conveyor. You can freely adjust the length of the bar by cutting it.

Gravity roller conveyor is designed as an extension to outfeed conveyors of our [stacking solutions](#).
